Surveyors

1. Attached is the previous month's supply of Surveyors I put together at the request of Dr. Wheelon and which I'm to hand carry to [redacted] ASAP. I mentioned that [redacted] is only cleared for SI, Crypt, I and O, whereupon Dr. Wheelon asked that we institute a request for [redacted] to be cleared for T-KH.

2. Perhaps we might have [redacted] do the paperwork or would you wish to take care of it through your security staff?

25X1A

3. Incidentally, I talked to [redacted] and he has not requested these publications nor has he asked for any security clearances so apparently the initiation is on Bud's part.
